Massage Therapy

Ylang Ylang Therapeutic Massage

A deeply relaxing massage that uses signature blended oils and specialized techniques, focusing on stress-holding areas of the back, neck, and shoulders, where our spa therapist skillfully modifies pressure to relieve sore muscles.

Filipino "Hilot" Massage

A traditional massage that involves intuition, wherein tailor-made Filipino massage techniques and holistic secrets work in synergy using warmed banana leaves slicked with virgin coconut oil to ease tensed muscles and identify areas that need more care.

Aromatherapy Massage

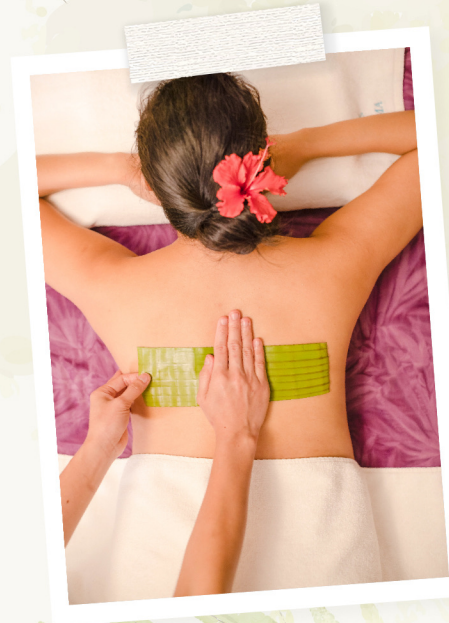

A therapeutic treatment that harnesses the powerful effects of essential oils to restore balance to your body and bring harmony to your state of being.

Renewal Massage

A massage therapy that invites relaxation through pressure points applied to your energy meridians with fingers, thumbs, palms, and even elbows to address all disharmonies and bring a sense of vitality.

Deep Tissue Massage

A massage that uses firm pressure, reaching the deeper layers of the muscle to release tension and re-energize your core. It is ideal for those who indulge in sports and intense physical activity or for anyone suffering from muscular tension.

Cocoon Massage

A prenatal therapy, this gentle, nurturing massage soothes, tones, and relieves the discomfort and exhaustion experienced by expectant mothers on their legs and backs.

Ylang Ylang Foot Bliss

A gentle foot massage that stimulates acupressure points in your feet that correspond with various parts of the body, inducing a healing response and leaving you completely revitalized.

Spa Indulgence

Restore smooth, radiant skin with our selection of exfoliating body scrub ingredients, each with its own unique texture and scent. Every treatment is completed with the application of a nourishing, hydrating lotion to lock in moisture and leave your skin velvety soft and protected.
